PROFILE

Python developer with hands-on experience in FastAPI, Flask and PostgreSQL. Built scalable API-based application with authentication, CRUD operations and database integration. Currently working as a Technical Apprentice, gaining real-world exposure to backend workflows, system design and problem-solving.

TECHNICAL SKILLS

Languages: Python, SQL
Frameworks: Flask, FastAPI
Databases: PostgreSQL
Web Technologies: HTML, CSS(basic)
Tools & Concepts: Git, GitHub, REST APIs, VS Code, pgAdmin, Postman

PROJECTS

FastAPI CRUD Service (PostgreSQL)

GitHub: Postgres Data Manager | Tech: Python , PostgreSQL, FastAPI

- Built REST APIs using FastAPI with full CRUD operations.
- Integrated PostgreSQL using psycopg2 for data persistence.
- Implemented partial updates using Pydantic models.
- Tested APIs via Swagger UI and handled validation/errors.

Weather & News Chatbot

GitHub: Weather & News Chatbot | **Tech: Flask, APIs, SQL**

- Developed a Flask-based web application that provides real-time weather updates and latest news.
- Integrated external APIs to fetch live weather data and Google News RSS feeds.
- Implemented SQLite database to store and manage user search history.
- Designed a simple web interface using HTML, CSS, and Bootstrap for user interaction.

PROFESSIONAL EXPERIENCE

Velocis, January 2026(Python Apprentice / Software Developer) — Present

- Worked on data processing and improved existing workflows for operational efficiency.
- Undergoing training in Python fundamentals, scripting, and logical problem solving.
- Assisted in developing and modifying Python script for backend operations and workflow automation.
- Learning professional development practices, documentation, and team collaboration.

INTERNSHIP EXPERIENCE

Google for Developers — Al/ML Virtual Internship
Palo Alto Networks — Cybersecurity Intern
NASA International Space Apps Challenge — Participant

Additional Technical & Community Experience

- Managed telegram chats as a mod by deploying bots.
- 60,000+ users in chat .
- automation
- Deployed bot-based alerts, announcements, securing users from phishing links and moderation .

Education

Bachelor of Technology (Computer Science & Engineering), Galgotias University, Greater Noida **(**CGPA: 7.67/10)
